#### **INDEPENDENT AUDITORS' REPORT**

Board of Directors B&T Securities, Inc.

We have audited the accompanying statement of financial condition of B&T Securities, Inc. (the "Company") as of December 31, 2004. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial condition. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition presents fairly, in all material respects, the financial position of B&T Securities, Inc. as of December 31, 2004 in conformity with accounting principles generally accepted in the United States of America.

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### Organization and Basis of Presentation

B&T Securities, Inc. (the "Company") was incorporated in the State of Florida on January 11, 2002 and operates as a registered securities broker/dealer under the rules of the National Association of Securities Dealers ("NASD").

The Company manages its customer accounts through a third-party clearing agreement with Fiserv Securities, Inc. ("Fiserv"), on a fully disclosed basis. Fiserv handles the Company's customers' funds, holds securities, and remits monthly activity statements to the customers on behalf of the Company.

The Company prepares its financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP"). The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

#### **Property and Equipment**

Furniture, equipment and leasehold improvements are recorded at cost and depreciated over the estimated useful lives of those assets using the straight-line method.

#### Cash and Cash Equivalents

Cash and cash equivalents include all highly liquid investments, if any, purchased with an original maturity of three months or less. The Company periodically maintains cash balances with financial institutions which are in excess of the insured limits.

#### Fair Value of Financial Instruments

Cash, accounts receivable, and accounts payable are reported in the financial statements at cost, which approximates fair value because of the short-term maturity of those instruments.

#### NOTE 2. NET CAPITAL REQUIREMENTS

The Company is subject to the Securities and Exchange Commission uniform net capital rule (rule 15c3-1), which requires the maintenance of minimal net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. At December 31, 2004, the Company had net capital of \$147,411, which was \$142,411 in excess of its required net capital of \$5,000. The Company had a ratio of aggregate indebtedness to net capital of .39 to 1, based on aggregate indebtedness of \$56,408 as of December 31, 2004.

NOTE 3.	PROPERTY AND EQUIPMENT				
	Property and equipment consists of the following as of December 31, 2004:				
	Furniture	\$	25,284		
	Equipment		41,446		
	Leasehold improvements		2,450		

Less: Accumulated depreciation 33,458

Property and equipment, net \$ 35,722

#### Financial Instruments With Off-Balance Sheet Risk

The Company may periodically sell securities that it does not currently own and will therefore be obligated to purchase such securities at a future date. The Company has recorded these obligations in the financial statements at market values of the related securities and will incur a loss if the market value of the securities increases subsequent to December 31, 2004.

The Company's customer securities activities are transacted on either a cash or margin basis. In margin transactions, the Company extends credit to its customers, subject to various regulatory and internal margin requirements, collateralized by cash and securities in the customers' accounts. In connection with these activities, the Company executes and clears customer transactions involving the sale of securities not yet purchased, substantially all of which are transacted on a margin basis subject to individual exchange regulations. Such transactions may expose the Company to significant off-balance-sheet risk in the event margin requirements are not sufficient to fully cover losses that customers may incur. In the event the customer fails to satisfy its obligations, the Company may be required to purchase or sell financial instruments at prevailing market prices to fulfill the customer's obligations.

The Company seeks to control the risks associated with its customer activities by requiring customers to maintain margin collateral in compliance with various regulatory and internal guidelines. The Company and its clearing broker monitor required margin levels and, pursuant to regulatory guidelines, require the customers to deposit additional collateral or to reduce positions when necessary.

The Company's customer financing and securities settlement activities require the Company to pledge customer securities as collateral in support of various secured financing sources such as bank loans and securities loaned. In the event the counter-party is unable to meet its contractual obligation to return customer securities pledged as collateral, the Company may be exposed to the risk of acquiring the securities at prevailing market prices in order to satisfy its customers obligations. The Company controls this risk by monitoring the market value of securities pledged and by requiring adjustments of collateral levels in the event of excess market exposure. In addition, the Company establishes credit limits for such activities and monitors compliance.

# NOTE 4. CONCENTRATIONS AND CREDIT RISKS (continued)

#### **Concentrations of Credit Risk**

The Company is engaged in various trading and brokerage activities in which counterparties primarily include broker-dealers, banks, and other financial institutions. In the event counter-parties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counter-party or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing for each counter-party.
